EXPERIENCE

Front End Engineer I   Aug 2022 - Jan 2024
Amazon.com | Vancouver, British Columbia , Canada
- **STACK:** React, TypeScript, Java, AWS
- Worked on Amazon.com's Stores - Customer Stores and Advertiser Builder web applications
- Implemented UI improvements such as out of stock filter, dynamic navigation widget, mobile web app navigation experiments, and contact rate reduction mechanisms to improve customer UX
- Expanded metrics dashboards to track feature performance
- Performed on-call duties to ensure high severity tickets were addressed in a timely manner

Junior Software Engineer   Feb 2021 - Mar 2022
Rose Rocket | Toronto, Ontario, Canada
- **STACK:** React, Redux, Golang, PSQL, Sass
- Spearheaded e-tracking page, multi-step forms, and email dashboards using React
- Initiated Gmail/Outlook 365 email integration
- Wrote database migrations to be run against production data in order to support feature requirements
- Facilitated pair programming initiatives between junior and senior engineers to promote code quality, knowledge transfer, and collaboration
- Conducted code refactor and code reviews to improve component reusability and code readability
- Collaborated with designers, engineers, and product managers to scope out features and and provide development timelines

Front-end Developer   Sep 2020 - Feb 2021
Countable Web Productions | Vancouver, British Columbia, Canada
- **STACK:** RiotJS, HTML, CSS
- Revamped multiple dashboards to sort client and booking data using RiotJS
- Worked closely with a UI/UX designer to create prototypes and develop features
- Maintained/refactored legacy code
- Participated in code reviews in order to maintain coding standards
- Coordinated with teammates across multiple time zones in Canada

Freelance Web Developer   May 2020 - Jul 2020
Freelance | Calgary, Alberta, Canada
- Deployed customer facing websites for small businesses and charity foundations as listed below
- Client: Araguacu Latin Dance Co. (https://www.araguacu.com)
